

Angry Bullet Game Project 1 Report

Angry Bullet is a physics-based game that tests your aiming and strategic skills. You take the control of a cannon and fire bullets to hit various targets on the screen. But obstacles standing in your way, and you should avoid hitting them.

You can use the left and right arrow keys to control the cannon's angle and adjust the bullet's power with up and down keys.

You should calculate the trajectory and fire the bullet at the right moment to achieve a hit.

If you miss a target or hit an obstacle, press "R" to reset and try again.
