

CampusConnect: Solution Overview

Empowering Turkish University Students with a Hyper-Local C2C and Social Platform

Step 1: Goals & MVP

Goals: Address economic pressures and social needs of 7.08M Turkish university students in a \$27.5B e-commerce market.

MVP: Hyper-local C2C marketplace and social network for cost-effective transactions and community building in major university hubs.

Step 2: Key Features

Hyper-Local C2C Marketplace for buying/selling used goods (textbooks, electronics, furniture).

AI-Powered Easy Listing: Snap a photo of an item, and our AI will automatically suggest a title, description, and category, making selling faster and simpler.

Zero/Low-Commission Transactions to maximize student savings.

In-App Social Networking for community engagement and interest groups.

Textbook & Supplies Exchange for affordable academic materials.

Geo-Tagged Listings for university-specific, in-person exchanges.

Premium Social/Dating Features for additional revenue (3.85B TRY market).
