

Pitch Deck Milestone 1 - Startup Idea

The Idea

CampusConnect - A dual-purpose mobile application combining marketplace and dating features exclusively for university students within the same campus.

Target Market

- **Primary:** University students (18-25 years old)
- **Geographic Focus:** Initially single university campus (your university)
- **Market Size:** 20,000+ students per typical Turkish university

What We Do

Marketplace Features:

- Buy/sell textbooks, electronics, furniture
- Rent laptops, printers, calculators, equipment
- Offer tutoring services and online courses
- Exchange notes and study materials

Dating Features:

- Connect with students from same university
- Campus-verified profiles for safety
- Study date matching and group activities
- Event-based meetups and social connections

Why This Combination?

1. **Higher Engagement:** Two compelling reasons to use the app daily
2. **Trust Factor:** Campus verification creates safer environment for both commerce and dating
3. **Network Effects:** More users make both features more valuable
4. **Unique Positioning:** No competitor offers this exact combination

Revenue Streams

- **Transaction Fees:** 5-8% commission on marketplace sales
 - **Premium Features:** Enhanced profiles, priority listings
 - **Subscription Model:** Premium dating features
 - **Service Fees:** Verification badges, dispute resolution
-

Competitive Advantage

- **Campus-Only Focus:** More trust and safety than general platforms
 - **Dual Purpose:** Reduces need for multiple apps
 - **Local Network:** Same campus = easy meetups and transactions
 - **Student-Centric:** Understanding of student budget and needs
-

Technical Feasibility

- **My Background:** Computer Engineering student
 - **Development Approach:** Mobile-first (React Native/Flutter)
 - **MVP Timeline:** 3-4 months
 - **Key Features:** User authentication, messaging, payments, matching algorithms
-

Growth Strategy

1. **Launch:** Single university (pilot program)
 2. **Validate:** Gather user feedback and iterate
 3. **Scale:** Expand to nearby universities
 4. **Long-term:** National expansion across Turkish universities
-

Success Metrics

- **User Acquisition:** 1,000 users in first 6 months
 - **Engagement:** 20% monthly active users
 - **Revenue:** Break-even by month 12
 - **Retention:** 40% user retention after 3 months
-

Why Now?

- **Post-COVID:** Students seeking more digital connections
- **Economic Pressure:** Students need affordable alternatives
- **Mobile First:** Generation comfortable with app-based solutions

- **Market Gap:** No campus-specific solution in Turkish market
-

Next Steps

1. **Market Research:** Survey students about pain points
 2. **Competitive Analysis:** Study existing solutions
 3. **MVP Development:** Build core features
 4. **Beta Testing:** Launch with small user group
 5. **Funding:** Apply for TUBITAK support (900k TRY available)
-

Team Requirements

- **Technical Lead** (Me): App development, backend systems
 - **Marketing:** Social media, campus outreach
 - **Design:** UI/UX for dual-purpose app
 - **Business:** Partnerships, revenue optimization
